A Letter from Congressman White, of North Carolina.

PE-RU-NA IS A HOUSEHOLD SAFEGUARD,

### No Family Should Be Without It.

PERUNA is a great family medicine. The women praise it as well as the men; it is just the thing for the many little catarrhal allments of childhood. The following testimonials from thankful men and women tell in direct, sincere lan-guage what their success has been in the use of Peruna in their families:

Louis J. Scherrinsky, 103 Locust street, Atlantic, Iowa, writes:

"I will tell you briefly what Peruna has one for me. I took a severe cold which gave me a hard cough. All doctors' medi cines failed to cure it. I took one bottle of Peruna and was well.

"Then my two children had bad coughs accompanied by gagging. My wife stomach trouble for years. She took Peruna and now she is well. I cannot express my thanks in words.

but I recommend your remedy at every op-portunity, for I can conscientiously say that there is no medicine like Peruna. Nearly every one in this town knew about the sickness of myself and family, and they have seen with astonishment what Peruna ample, and the result was health. Thank-ing you heartily, I am. -L. J. Scherrinsky, Mrs. Nannie Wallace, Tulare, Cal., Presi-

Peruna protects the family against coughs, colds, catarrh, bronchitis; catarrh of the stoniach, liver and kidneys. It is just as sure to cure a case of catarrh of the bowels as it is a case of catarrh of the head.

George H. White.

Peruna is an internal, scientific, systemic remedy for catarrh. It is no palliative or temporary remedy; it is thorough in its work, and in cleausing the diseased mucous membranes cures the catarrh. If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving, a full be pleased to give you his valuable advice grats.

### Sunstroke Insurance

When the summer's heat gets about 90 degrees, you are liable to be sunstruck any time you are out in the sun, unless you take proper precautions. Several years ago, the writer of this, who has spent much of his life in the tropics, thought he was safe from sunstroke. One day he collapsed, remained unconscious for five hours, and at times his life was despaired of. As a matter of fact, any person whose stomach and bowels are in bad shape in the summer time, is liable to be sunstruck in tem-

perature that would be harmless under normal conditions. That's all there is to it. Stomach and bowels full of festering, fermenting refuse that forms acids and gases, raise the heat of the body and blood many degrees. Scientists have found that natives of the South Sea Islands, living on laxative

fruit, bananas, cocoanuts, bread-fruit, have a temperature 20 degrees lower than that of white men who are careless about their food or their bowels. It has been found in years of experience, that a CASCARET Candy Cathartic taken at

bed-time every night will keep the body clean and cool inside all day. and forms a safe and thoroughly reliable form of sunstroke insurance.

These warrants are to be served before the men for whom they call are allowed to vots. Up to 4 o'clock very few of the men mentioned in the warrants had appeared at the polling places.

Balloting began slowly in the Thirty-fourth, Assembly District, and it did not take the Cowan-Haveron forces leng to discover the reason. Percy Nagle had charge of the election man thinery. It is alleged by the opposition that he supplied ballot-boxes so small that they would not contain one-fourth of the total vote—this with the idea of delaying the balloting.

Complaint was made to the East One Hundred and Twenty-sixth street station and patrol wagons were sent out loaded with large ballot boxes, which were substituted fr small ones wherever necessary.
